Work Experience:

- Self Employed eStore owner
Salt Lake City, Utah
June 2021- Current

Growing my online marketplace started out as a hobby and grew into being my main financial support. I manage inventory, track sales, growth, labor, and profit. I lead 4 employees to continue our overall growth as a company.

- Rocky Mountain Mechanical- HVAC Shop
Salt Lake City, Utah
Jan 2018 - June 2021

Fast pace fabrication of a wide variety of material in the realm of HVAC, plumbing, electrical, and refrigeration. Knowledge of dimensions and mathematics to create square and round ducts using a wide range of machines and tools. Experience in welding, CNC, plasma cutters, spiral-helix and other common tools used with sheet metal fabrication.

- Victra Wireless- Sales Associate
Sandy City, Utah
July 2017 - Jan 2018

Works over the phone and through email to inform customers off an excel sheet that they are eligible for new equipment. I show them the benefits of retaining the customer and upgrading their contracts/equipment. Works well with self motivation as a large majority of my income is commission based. Great communication and problem solving skills since I need to identify what about their account would appeal and what is currently costing them money. Great self discovery skills in understanding what may be costing customers more money and understand what/why it would be beneficial for them to switch their plan or equipment to to help save them money or fulfill their needs.

- Hexcel - Lab Technician
West Valley City, Utah
November, 2013 – July 2017

Fast paced data entry, The ability to test different types of composite samples, such as dry fabric, impregnated fabric and resin, print product manufacturing sheets for Line Operators along with testing data and procedures for lab use, Certified to legally approve or decline product, Extensive knowledge on using Labware, Excel, Word, Outlook, and Smart Solve, write non conformance sheets for failing product, operate multiple kinds of machinery, including; spectrophotometers, heated presses, air compressed ovens, sand blasters, Fischer Jon hot plates and resin scanners. Can safely handle multiple types of chemicals like MEK, NMP, ACETONE, etc, communicates between Line Operators, Line Supervision, other Lab Tech Specialists and Lab Supervision on testing procedures and product condition via phone, email, and person to person, Communicates product condition to Line Operator to ensure passing product, Pulls mechanical and chemical sampling for other departments.
